

# Judgement Day

## Ms. Dynamite

How could you beat your woman till you see tears?  
Got your children living in fear, mm  
How you gonna wash the blood from your hands?  
Selling debt to fiends  
Barely fifteens  
So you can ? all your dreams  
How you gonna wash the blood from your hands?  
You claim you're doing God's work  
Greet the family with a smile  
When all the while  
You been raping that child  
You a priest but you still can't  
Wash the blood from your hands  
The self hate they create in your hair  
Got you pickin' up their weapons  
And leaving your brothers there  
How you gonna wash the blood from your hands?  
I wonder what you gon' do  
When he comes for you  
Where you gon' run  
Once he calls for you  
Where you gonna hide  
The day he sends for you  
And he questions you  
I wonder what you gonna say  
When that day comes  
When judgement day comes  
I'm talking bout the sins you commit  
Killing innocent kids so you can fill your pockets  
Tell me how you gonna wash the blood from your hands?  
Now take a look at these project buildings  
They got us living in  
It's like we're raised in prison cos of the colour of our skin  
Now how you gonna wash the blood from your hands?  
The pharmaceutical industry need to get paid  
They're sitting on a cure  
Watching new born babies die of AIDS  
Tell me how you gonna wash the blood from your hands?  
How could you keep exploiting 3rd world children

Using them as underpaid slaves  
So you can make your millions

How you gonna wash the blood from your hands?

I wonder what you gon' do

When he comes for you

Where you gon' run

Once he calls for you

Where you gonna hide

The day he sends for you

And he questions you

I wonder what you gonna say

When that day comes

When judgement day comes

We sit and watch why people get hurt

Stand to say nothing when they do the devil's work

Walk straight by leave them crying in the dirt

What kind of people does that make me or you?

And we could have all the good intent

But we sitting in silence

We committing greed and violence

Then we got blood on our hands too

I wonder what you gon' do

When he comes for you

Where you gon' run

Once he calls for you

Where you gonna hide

The day he sends for you

And he questions you

I wonder what you gonna say

When that day comes

When judgement day comes

I wonder what you gon' do

When he comes for you

Where you gon' run

Once he calls for you

Where you gonna hide

The day he sends for you

And he questions you

I wonder what you gonna say

When that day comes

When judgement day comes
