Pain of Love

[The Colwell Brothers](#)

The pain of love won't break us up
We don't need your salvation
The pain of love will never stop
We are our own creation
The pain of love lives in our hearts
It's deeper than the ocean
The pain of love waits in the dark
We take it in slow motion
And we go on and we go on
And on and on and on
We don't belong, we don't belong
Belong to anyone
The pain of love will last forever
Promise me, promise me
We'll celebrate the pain together
The pain of love, love, love
The pain of love in all of us
It hits you like a hammer
The pain of love, we can't turn off
Let's celebrate the drama
The pain of love, don't let us crush
We will be all forgiven
The pain of love, I wanna touch
Without it's not worth living
And we go on and we go on
And on and on and on
We don't belong, we don't belong
Belong to anyone
The pain of love will last forever
Promise me, promise me
We'll celebrate the pain together
The pain of love, love, love
We climb the mountains
Walk the deserts for our love
Let's make a pact tonight
So we can feel this pain of love forever
And we go on and we go on
And on and on and on
We don't belong, we don't belong

Belong to anyone
And we go on and we go on
And on and on and on
We don't belong, we don't belong
Belong to anyone
The pain of love will last forever
Promise me, promise me
We'll celebrate the pain together
The pain of love, love, love
The pain of love
The pain of love
The pain of love
