

Kismet

Elvis Presley

When you meet by chance, it's not just by chance
It's kismet

When two hearts stand still, it's destiny's will
It's kismetThe wheel of fortune spins, round and around it goes
Who will the arrow point to, only kismet knows
Until you came by, kismet and I, were strangers

But now that you're here, it's suddenly clear we've metThis is my lucky day, love's in the cards, I'd say
Thanks to kismet, kismet, kismetUntil you came by, kismet and I were strangers
But now that you're here, it's suddenly clear we've met
This is my lucky day, love's in the cards, I'd say
Thanks to kismet, kismet, kismet
