

# Body Shop

## Madonna

With all these corks we might need to have the base looked at  
So pop the hood and see what's good I need to a toolin' man  
My precious love I'm on a roll but my transmission's blown  
I heard a thump and then a knock I hear you work at a body shop  
I hear you work at a body shop You can keep it overnight  
You can do whatever you like  
Working overtime  
Working on the line You can polish the headlights  
You can smooth out the fender  
You can start the ignition  
We can go on a bender Stuck to the seat, our body heat, what will you do with all this ass  
Let's shift the gears, get outta here, we're steppin' on the gas  
We gotta bounce, we're gone past, let's let the seat go back  
You take the wheel, I'll sit on top I hear you work at a body shop  
I hear you work at a body shop You can keep it overnight  
You can do whatever you like  
Working overtime  
Working on the line You can keep it overnight  
You can do whatever you like  
Working overtime  
Working on the line I'll work on the engine  
Like we blew a gasket  
Tighten up the suspension  
And you don't have to ask it I, I, I hear you work at a body shop  
I, I, I, I hear you work at a body shop I would drive to the ends of the Earth for you  
Jump start my heart, you know what you gotta do  
I would ride through the dark of the night with you  
Cross my heart and hope to die, it's true You can keep it overnight  
You can do whatever you like  
Working overtime  
Working on the line You can keep it overnight  
You can do whatever you like  
Working overtime  
Get to the line You work at a body shop  
You work at a body shop  
You work at a body shop  
I, I, I, I, you work at a body shop  
You work at a body shop
