Jabberjaw

Phantom Planet

Isn't there enough to talk about?

I don't want what else is running out your mouth

Chewing my ears from my head

Will not keep me interestedI wanna put you on someone else

I wanna leave you all by yourselfIf I look like I'm involved

Well, I ain't listening at allYou never listen to a single thing I say

How in the hell did I get into this mess anyway?Oh yeah, I was shot in the hall with a glance

If looks could kill I would've never had a chance

And you could bury me where I lie

I'm so unhappy that I could dieOther people, they're not looking

Anywhere in your direction

Got this creeping party doubt

There's no way I'm ever getting outYou're having fun at my expense

Oh yeah, you're raking up

Sometimes I think that you

Wanna end up with no one to talk toOther people, they're not looking

Anywhere in your direction

Got this creeping party doubt

There's no way I'm ever getting outThey're acting like somebody near

Just passed away in here

So if I go, no when I do

You'll end up with no one to talk to
