

Don't You Know?

Madonna

You, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find You came along when I was losing my way
You touched my heart and now I'm ready to say
That all your sweetness callin' back ugly skies
And now I've fallen for the look in your eyes I couldn't ask for more
You're what I'm looking for, oh Oh you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Sometimes I feel I have to get away
I change my mind when I look in your eyes
And when those clouds come in to darken our day
You're never gonna hear me say goodbye I couldn't ask for more
You're what I'm looking for Oh you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Don't you know you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Don't you know?
Don't you know?
Don't you know?
Don't you know? Tainted love Oh you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Don't you know you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Don't you know you, you make my life much bright, baby
You're always on my mind
Don't you know you, you make my load much light, baby
True love is ours to find Don't you know you
