

# The Lies We Live

## Coffee Project

It's kinda crazy how time can move by  
It's gone so fast;  
Some things just won't wait.  
That's why you gotta live each moment  
Like it was your last,  
Before it's too late.

I've found that this always keeps me happy.  
Take a deep breath and then the world around you starts to make more sense.  
Don't waste your time; You're only here for so long.  
Don't let the pressures of this world get you down.  
There's so much more to life than keeping deadlines.  
Take one step back and then you'll start to see the whole picture.  
It's looking pretty good from where I'm standing.

Every second goes without regret now,  
No living in the past;  
You've got a clean slate.  
Revolutionize the way you think now,  
Be like a shotgun blast;  
We choose our own fate.

I've found that this always keeps me happy.  
Take a deep breath and then the world around you starts to make more sense.  
Don't waste your time; You're only here for so long.  
Don't let the pressures of this world get you down.  
There's so much more to life than keeping deadlines.  
Take one step back and then you'll start to see the whole picture.  
It's looking pretty good from where I'm standing.

I can see ahead for miles.  
This could be the clearest that I've seen in my entire life.  
I can see ahead for miles.  
This could be the clearest that I've seen in my entire life.  
In my whole life  
In my life

Don't waste your time; You're only here for so long.  
Don't let the pressures of this world get you down.  
There's so much more to life than keeping deadlines.

Take one step back and then you'll start to see the whole picture.  
It's looking pretty good from where I'm standing.
