

Sleep Together

Garbage

I got you crawling up a mountain
Hanging 'round my neck
I got you twisted 'round my finger
Crawling 'round my legs
The emptiness, the craziness
Satisfy this hungriness
Darling, how would it feel?
If we sleep together
Will you like me better?
If we come together
We'll go down forever
If we sleep together
Will I like you better?
If we come together
Prove it now or never
Make me a pretty person
Make me feel like I belong
Make me hard and make me happy
Make me beautiful
The emptiness, the craziness
Satisfy this hungriness
Darling, how would it feel?
If we sleep together
Will you like me better?
If we come together
We'll go down forever
If we sleep together
Will I like you better?
If we come together
Prove it now or never
If we sleep together
Nothing satisfies me, baby
If we sleep together
I'll wear something pretty, baby
If we sleep together
Give me what I crave now, baby
If we sleep together
Save the rest for later, baby
If we sleep together

You will drive me crazy, baby
If we sleep together
I save it all for you, my baby
If we sleep together
If we sleep together
