high rise

High Rise

Black sun rising, new day dawning
I'm defying, I'm destroying
We are on the same high you and I
Open on the same page no sunrise
Tender talons, chase horizons
Masquerading, black sun rising
We are on the same high you and I
Open on the same page no sunrise
Silent movers, up and towards them
Perfect timing, hello morning
We are on the same high you and I
Open on the same page no sunrise
Sun is fading, darkness falling
New day dawning, last sun rising
We are on the same high you and I
Open on the same page no sunrise
We are on the same high you and I
Open on the same page no sunrise
We are on the same high you and I
Open on the same page no sunrise
