

Get Low

Editors

The rally cry, the call to arms
Another lame excuse
So bite your tongue, 'cause where's the fun
In another truceSo get low
Get lowOnly the last glow, lights up an atmosphere, an atmosphere
Only the last glow, lights up an atmosphere, an atmosphere
I am blinded hereI wish I could solve this, solve this
I just can't
I wish I could solve this, solve this
I just can'tI do believe
Your bible states your crime
I do believe
Your hate justifies mineNow get low
Get lowOnly the last glow, lights up an atmosphere, an atmosphere
Only the last glow, lights up an atmosphere, an atmosphere
I am blinded hereI wish I could solve this, solve this
I just can't
I wish I could solve this, solve this
I just can'tNow get low
Get low
Get low
Get lowI wish I could solve this, solve this
I just can't
I wish I could solve this, solve this
I just can'tI wish I could hold this in my hands
I wish I could solve this, now solve this
I just can't
