

# Saving Me

## Ufo

Some men come from nothing  
Some men will not bend  
Some will do the bleeding  
Til the bitter end  
If I was an angel  
I could make it rain  
Up upon the wild wild wood  
Like brother cain  
Some men come from nothing  
Some men will not bend  
Some will do the bleeding  
Til the bitter end  
If I was an angel  
I could make it rain  
Up upon the wild wild wood  
Like brother cain  
And the devils and the clowns  
Whiskey rye and cinders  
She's the one  
Save me from falling  
Come and save my mortal soul  
Save me from drowning

Oh baby I don't know  
Which way to go  
No one comes to see me  
No one knows my name  
I'm the lonely stranger  
A visitor by name  
No no no  
Turn me around  
Whiskey rye and ginger  
Devil wears a crown  
My only crime is sinning  
I'm homeward bound  
Hold me tighter before I drown  
Save me from falling  
Come and save my mortal soul  
Save me from drowning

And save my mortal soul  
Sometimes baby now  
I gotta hear you calling  
Save me from falling  
Come and save my mortal soul  
Save me from drowning  
And save my mortal soul
