

Pay it Forward

Tenille

There's a spark
Easy to find in the dark
Waiting inside of your heart
I see it in you, ready to light up this world

Why
Do you keep it hidden inside
Just set it free, let it shine
All it takes is the first step

Take a chance, take a stand
Make a difference now
With your own two hands
Plant a seed, watch it grow
And you'll give more back then you'll ever know
Cause love isn't just a word
So Pay It Forward

Don't you see
You are the one with the key
To all that I know you can be
There's no one like you
If you only believe it
Gone
Are the fears you've had for too long
All that you've got- pass it on
And let it live forever

Take a chance, take a stand
Make a difference now
With your own two hands
Plant a seed, watch it grow
And you'll give more back then you'll ever know
Cause love isn't just a word
So Pay It Forward

Nanana...

Take a chance, take a stand
Make a difference now
With your own two hands

Plant a seed, watch it grow
And you'll give more back then you'll ever know
Cause love isn't just a word
So Pay It Forward

Nanana...
