This Time

Olive

This time make no mistake
Resolute and crystal clear
This time I'm ready for you
Complete and without fear
Sweet believer
You must be found
A soul survivor
Who'll stick around
Never let me downTrouble in mind
(It's a question of pride)
The standard is high
(I couldn't live with another lie)
I could walk miles
(If the feeling was right)
You took my time
(I couldn't live with another lie)This time my eyes will look at you
Searching for better ground
This time the rules we make will be mine
Stronger than you have found
Clearer than clarity itself
I am no visionary
Why do I enquire of myself?
Questioning my inner strength
Too heavy to carryTrouble in mind
(It's a question of pride)
The standard is high
(I couldn't live with another lie)
I could walk miles
(If the feeling was right)
You took my time
(I couldn't live with another lie)Trouble in mind
(It's a question of pride)
The standard is high
(I couldn't live with another lie)
I could walk miles
(If the feeling was right)
You took my time
(I couldn't live with another lie)Trouble in mind
(It's a question of pride)

The standard is high
(I couldn't live with another lie)
I could walk miles
(If the feeling was right)
You took my time
(I couldn't live with another lie)This time
