Yours And Mine

Calexico

Getting late for decision
What's that waiting about?
Horses are chomping at the bit
And the gate is nearly busted downMoment before the calm of the storm
And everyone's blood goes wild
Except yours and mine
Yours and mineAnd how many years has it taken
Your restless heart growing old
Horses running off on their own now
And the stable's burnt to the groundThe longer you wait, your decision will fade
And wind up wasting this time
Yours and mine
Yours and mine
Yours and mineMoment before the calm of the storm
And everyone's blood goes wild
Except yours and mine
Yours and mine
