

Paradise (feat. Deploi)

Astronauts of Antiquity

Paradise, I want a slice
Please play nice
But that's not how this game goes.....What came first, the chicken or the egg?
Or the leg to move forward, 'stead biting into what they said
Corn fed now a days has a different meaning
Animal Farm, by (George) Orwell, should be mandatory reading
Teeth sinking like a vampire in the evening
But this is broad day light, still people ain't seeing
What's on that plate you eating?
Do you really know?
Even when you think you do, it's like a magic show
And who's the Assistant?, corporations so persistent
Fluoride in the water system that you sit & sipping
The only thing consistent is the dividends that they're getting
Never worried about the hazards we're ingesting....Paradise, I want a slice, please play nice
But that's not how this game goes
It's a Pair of Dice, virtue is vice, human sacrifice
We know what's good for you folks Like Dorothy lost in the land of OZ
In a Monsanto field, like I'm made of straw
Follow the yellow brick road to a lost cause
See all that glitters ain't gold, something's so off
Food engineered, free thinkings what they fear
Manipulated media bombards us with what they wanna hear
Pharmaceutical companys keep us on a short leash
Speech used to be free, now they charge a fee
And the payment been modified genetically
Ingesting a sickness symptoms you'll never see
High fructose in every thing that the youth drinks
And I ain't talking ph phat, this country's obese....Bridge:
I wanna be, I wanna see every boy and girl
Breathing clean, running free in a beautiful world
Pass the Pollyanna, ask the Dalai Llama yes he would agree
Occupy the soul of humanity.....(let's occupy it...)An ocean made of plastic, and the snow too
Clouds suddenly fill the air when they want 'em to
They can change our mood,by frequencies & tunes
Listen to the radio no, turn it off and choose
To be educated instead of decimated
From the inside out, so the structure made is
All natural and has a solid foundation

Instead of a GMO fast food nation
Constipated, when I bite what's feed
You think the FDA or Feds care?
The answer's opposite of yes
See the future generations and the ones that follow
Are gonna feel these scriptures, but I'm no apostle. Paradise, I want a slice, please play nice
But that's not how this game goes
Pair of Dice, virtue is vice, human sacrifice
We know what's good for you
