Stu

Superdrag

The very last time that I saw Stu
He was on his way out west
He said that he was trying to find himself something else
Having a helluva good time tryingTwo weeks later I got a postcard from Texas
Saying, "I've joined a traveling show"
The impersonating duo of Bela and Ron
While she does Tina he does the king
And all the harmonies I sing suspicious minds to the acid queenIf you can get the ride
You wouldn't go any other way
Take it a while
'Cause this could be any other dayAnd they played throughout the southwest all winter long
From hotel lounge to hotel lounge
Ron likes liquor Bela loves speed
Stu's found a good mix in between
No matter where they tour
They end up wasted and wanting moreIf you can get the ride
You wouldn't go any other way
Take it a while
'Cause this could be any other dayAway
My, my way
My, my way
