

# Gods of Thunder of Wind and of Rain

## Bathory

Creator of life.Guardian of he dead  
Goddess of battle and war  
All of yee watch me.My sword by my side  
Proudly I sit on my horse  
And I wait for the sign in the sky to appear  
Telling me that the moment has come  
For me to ride beyond the edge of this world  
Into the realms where the shadows are strong  
Gods of thunder of wind and of rain  
Valkyries my soul is yours should I fail  
Let me beheaded and battered corps lay  
And take me where you bring all nordsmen slain  
Gods of thunder of wind and of rain  
Hugin and Munin my eyes in the sky  
Heart of mine thrown in the pit of the snake  
I will not need no heart where I go should die  
Realms of the shadows bring me no fear  
I may stand or be beaten and torn  
The mountains will stand.But the life of a man  
Was decided long before he was born  
Leaving the olains where my ancestors hunted  
For meat and for hides against the cold  
Here the fire was tamed.Here ous swords were made  
And here the elders amazing tales told  
I ride into the land few have seen or returned from  
To tell of its bleakness and dark  
I see nothing but mis and the mountains so tall  
I can` t tell them and the sky  
Gods of thunder of wind and of rain  
Valkyries my soul is yours should I fail  
Let me beheaded and battered corps lay  
And take me where you bring all nordsmen slain  
Gods of thunder of wind and of rain  
Hugin and Munin my eyes in the sky  
Heart of mine thrown in the pit of the snake  
I will not need no heart where I go should die  
Realms of the shadows bring me no fear  
I may stand or be beaten and torn  
The mountains will stand.But the life of a man

Was decided long before he was born  
Gods of thunder of wind and of rain  
Valkyries my soul is yours should I fail  
Let me beheaded and battered corps lay  
And take me where you bring all nordsmen slain  
Gods of thunder of wind and of rain  
Hugin and Munin my eyes in the sky  
Heart of mine thrown in the pit of the snake  
I will not need no heart where I go should die
