

# Spiritual Revolution

## Third World

Spiritual revolution, changing inna disya generation  
Spiritual revolution, changing inna disya irritation We've got to fight, for what we know is right  
But the wrong, yes, we don't need that here tonight  
If the fight brings more peace Jah Jah love will increase  
Then ride on, ride on. I'll be riding at your right Spiritual revolution, changing Inna disya generation  
Spiritual revolution, changing inna disya iration How can I loose, no, Jah, Jah, children refuse to be caught  
In your trap forget about that, you know, you know, you know  
Just where I'm at every man has a conscience and every man got a soul  
Worth much more than siliver, its worth much more than gold  
And don't you be the one to be caught red handed  
Don't you be the one who is offended We've got to win, yes, it's not a physical thing, but it's the fight  
Oh, it's the fight that goes on so deep within, yes  
Forget about that, you know you know just where I'm at  
How still is the water oh they run so deep  
I n a this ya revolution Jah Jah children no sleep  
And don't you be the one to be caught red handed  
Don't you be the one who is offended Spiritual revolution, changing inna disya generation  
Spiritual revolution, changing inna disya iration You've got to turn yourselves around world  
Is gonna change on you, on you  
It's changing every day, hear me when  
I say world is gonna change on you, on you  
World is gonna change on you I tell you, don't be caught in the trap, no no  
World is gonna change on you  
I tell you, what goes on on the inside will show on the outside  
What's goin' on on the outside is just a reflection of the inside  
Get yourself together, don't wait till the judgment day  
My sister and brother World is gonna change on you, on you  
World is gonna change on you, on you
