ETERNAL LIGHT

The Heavy Manners

Fear begin to turn around I guess if everyone listens In your heart someone's there I'm sixty years old There's no one left to fight. With nothing left to say. When you ? away Seems the message is Why does it really prove Gotta serve the sun Now you don't know Then I don't suppose That you chose to walk a straight road When to listen or just let it go Then you'll never know And I don't suppose Then you'll never know That you chose to walk a straight road Why does it really prove When you ? away Seems the message is Gotta serve the sun
