Klapp Klapp

Little Dragon

Corridor lies with the river
All watery eyes
I stand there waitin' for my turn
I turn with a rise
The spirits blow around like a hurricane whip
The girls don't mind my ice cream dripSomebody found us dancing
You can turn off and feel better
When everything's clear like cold weather
Go feel better, feel betterSomebody from my heart sang
I could turn off and never wake up
And everything's clear, my breath made like-steam fake
Feel better
Fallin' apart, apart, apart, apart, apartFinally they call my name
The ghost inside can wake us to life
Makin' my chair do flips
By givin' into this we'll be safe every timeFallin' through the floor on my broken butterfly wing
Everyone or the girl from the corridor sing, she sing
I hear you want it, don't you?
I know you want it, don't you, don't you?
I see you want it, don't you?
I know you want it, don't you, don't you?
Fallin' apart, apart, apart, apart, apartSomeone found us dancing
You can turn off and feel better
When everything's clear like cold weather
Go feel better, feel betterSomebody from my heart sang
I could turn off and never wake up
And everything's clear, my breath made like-steam fake
Feel better
Do you want it? (She says) Do you?Do you want it? (She says) Do you?Fallin' apart, apart, apart, apart, apart
