

Surround

In-Flight Safety

There's a little hope
In the little plans
The bells chime out today
In a major key
I took a walk outside
Listen to the sound of my step
Headed out of here
But you pulled us back one by one
So, I awoke to find
the space you left behind
there was a meaning there
but now just favorite songs
and something you once wrote
on page you left behind
I can do anything
But you blocked my way, with
Your love
Your love it surrounds
Why now?
Your love
Your love surrounds
A universal love
So, I awoke to find
Some major plans of mine
And the bells chime out of key
They made it sound so lonely
So I'm out of here
To a time zone far away
Where I can do anything
But you blocked my way with
Your love
Your love it surrounds
Why now?
Your love
Your love surrounds
A universal love
Oh my love, you're running out of space
So soon my love, there's nothing hear to face
Here, then gone, soon, then gone
Here, then gone, soon, then gone
Oh my love, you're running out of space
