

Beautiful

Joe

(Woah, oh, woah)

So beautiful, just can't be more beautiful.

You're so beautiful, you just can't be more beautiful.

(Oh woah, woah, woah, beautiful. Woah, woah, woah) When I look into your eyes, it's like staring at the stars in the night.

It's like learning every reason why you're my earth, my sun, the center of my life.

If your name is love, then I know there's a god above.

Who wants me just the way I am and that's enough.

To believe and be the only one I trust, now that's love. When the storm gets rough she, calms the rain.

When time gets tough she, don't complain.

When it's hard to breathe, she breathes for me.

Baby you're all I need. Through the heartache and pain, it's your love that remains.

Girl this rose says one thing, it's your beautiful, you're beautiful.

All the hell you've been through, I don't know how you do it.

Wishing I was more like you, cause you're beautiful, you're beautiful. I'm living in a dream, it's like a fortune I knew this is supposed to be.

You're like the land when I'm far out in the sea.

Just like a sinner who's life has been redeemed.

That's how you change me. When the storm gets rough you, calm the rain.

When time gets tough you, ease the pain.

When it's hard to breathe, you breathe for me.

Baby, you're all I need. Through the heartache and pain, it's your love that remains.

Girl this rose says one thing, it's your beautiful, you're beautiful.

All the hell you've been through, I don't know how you do it.

Wishing I was more like you, cause you're beautiful, you're beautiful.(x2)

L is for the love that you show me.

O is for the opposition you went through for me.

V is for the vows you care faithfully.

E eternally, you and me (Yeah)(x2)

Through the heartache and pain, it's your love that remains.

Girl this rose says one thing, it's your beautiful, you're beautiful.

All the hell you've been through, I don't know how you do it.

Wishing I was more like you, cause you're beautiful, you're beautiful. You've got everything I need baby.

I don't need nobody else baby.

I'm so glad that you are my lady.

(Cause you're beautiful)
