If Only

Information Society

If only I had known you better
If only you weren't afraid to try
You and me we'd make a bad, bad team
But we'll never understand the reasons whyIf only you
If only me
If only you
If only meI remember the day that I met you
The politics were already strong
I think you knew like me that it would never work out
And I'm surprised that it even lasted so longIf only you
If only me
If only you
If only meIf only light didn't come in the morning
If only darkness didn't fall at night
If only you and me had led different lives, baby
I know that everything would have turned out alrightIf only you
If only me
If only you
If only me
