

Sof'n Sweet

Jon B.

You peeped me at the stop light
X5 polished twenties rollin' tight
I was wildin' out my sunroof
On my way to the roller rink
Get my skate on tonight Said, baby can you follow me down the street
Show you were the party's live
Gotta fresh cut and you got your hair done
We both clean and lookin' fine
I watch you roll so Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I'll just stand here watch her break it down
Break it down for me Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I'll just stand here watch her break it down
Break it down for me 'Cause I'm liking what I see up in this mug
With my family
We got the whole rink to ourselves
Just me and my peeps going around clowning Kinda like the night when everything's alright
Red and blue sparkling light
Disco balls spinning round we rollin' tight
And everything that you do makes me wanna ride
Do something something sof'n sweet tonight Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I just stand there watch you break it down
Break it down for me Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I'll just stand there watch her break it down
Break it down for me Look atcha dancin', girl, you're so fine
Just have to see and talk to you
I don't see you with a man
Hope you're not taken, here goes nothing Go ahead, show me how you do that You push that left hip in
You push that left hip out
Poke out that love so I can see
Then you turn that love around
So sof'n sweet you do

When you do, you turn it out
That's what it's all about You push that left hip in
You push that left hip out
Poke out that love so I can see
Then you turn that love around
So sof'n sweet you do
When you do, you turn it out
That's what it's all about, yeah Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I just stand there watch you break it down
Break it down for me Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I just stand there watch you break it down
Break it down for me Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I just stand there watch you break it down
Break it down for me Sof'n sweet
Lookin' like she might be available
To get close with me
Baby, I just stand there watch you break it down
Break it down for me
