

Autumn Goodbye

Britney Spears

[Chorus]

I never promised you a happy ending

You never said you wouldn't make me cry

But summer love will keep us warm long after

Our autumn goodbye, autumn goodbye, autumn goodbye. Thinking of you

And the love of our lives

In the sweet summertime

so sad but true (so true, so true)

We must leave it behind in our heart in our mind.

From April through September

Bittersweet was the love that we shared don't forget I remember [Chorus: Repeat x2] Memories can make (they can make)

But my heart has a place for the smile on your face

And maybe someday (someday)

We can be more than friends love will find us again.

Red leaves and blue tomorrows

Time will give back the love that we shared on the time that we borrowed [Chorus: Repeat x2] From April through September

Bittersweet was the love that we shared don't forget I remember [Chorus: Repeat x2] We leave behind, the sum my time, our hearts our minds

They will remind, we won't forget

The day we met

The day we cried ooh

Autumn goodbye [Chorus]
