

Down Town

Heidi Happy

Bring me down town, I wanna be your friend
Bring it all to an end, bring it all to an end
Go for a while, go on and hide your head
Bring it all to an end, bring it all to an end Show me down town, I wanna be your friend
Bring it all to an end, bring it all to an end
Let's go for a stroll, I wanna hold your hand
Bring it all to an end, bring it all to an end I wasn't counting on you
Now I've loved through
I wasn't counting on you
You should've told me long ago
Bring me down town, I wanna be your friend
Bring it all to an end, bring it all to an end
Go for a while, go on and hide your head
Bring it all to an end, bring it all to an end Show me down town, I wanna be your friend
Bring it all to an end, bring it all to an end
Let's go for a stroll, I wanna hold your hand
Bring it all to an end, bring it all to an end I wasn't counting on you
Now I've loved through
I wasn't counting on you
You should've told me long ago Down town
Thanks for coming looking party
I brought some chocolate in case you want some
Bring me down town, I wanna be your friend
I wasn't counting on you
Bring me down town, I wanna be your friend
I wasn't counting on you
