Wasting Your Time

Carlos Jean

You wanna pretend, baby, wanna be a big start in your head
Wanna chill, want the fame and all the flashes all night, all day
Babe stop I wanna teach you stuff,
what you see on the screen might be real maybe not
When the speakers are loud, you can't hear all the shouts
All the pain and know what? That the deal that you sign baby
Deceptions all day, maybe wanting to say thatBaby tonight, stop wasting your time
Baby please say goodbye I'm here with you,
Baby don't' run I will help you out, we can just re-start
Just keep waving, waving, waving goodbyeTake your wannabe's
I wanna have my own time, you never know what you get,
But baby you're the one hon, you getting what you want,
A little bit of time, to have a good time when you're going so
No, don't you keep them second guessing
Give them something to hate,
Something they can throw away, scramble
Give them some hon,
Give them your song,
And they'll wanna sing
And they'll wanna be
You, on the screen
On their glasses, on the scene you're all right, baby sing
What you need, everything will be fine,
'cause baby you can get it, if you want it, relax
Oh baby all the cars, and the fame,
It goes faster, luster
Everything you master
Flows
All I wanna be is better than the best of my hopes,
Baby wanna keep it flowing under control,
The medicine you love but keep on talking some more
We've become some' breaking the mold, now walk
Don't stop 'till you have someone to love
Oh baby I wanna see you fly high
You maybe wanna try,
You maybe wanna give your crazy heart a ride Monday
Won;t be something that you want to kill slowly, rolling,
Down the fear of falling alone, 'cause you're not alone
I'm falling with you, singingBaby tonight, stop wasting your time

Baby please say goodbye I'm here with you,
Baby don't' run i will help you out, we can just re-start
Just keep waving, waving, waving goodbye
