## The Ozark Mountain Daredevils

If I fell off to sleep and did not wake  
A-would the Lord my soul to take  
And could the land that I've known also die  
Do you think of you and wonder why?Down in Leatherwood  
That thought we leave behind  
Down in Leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blueWas a mad house all flooded by the rain  
Or did I once live it in a dream  
A-throwing all good minutes to the sea  
Did you know the sky can also bleed?Down in Leatherwood  
That thought we leave behind  
Down in Leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blueAn inner voice, it is telling me my verse  
Oh and if you're listening it can only make it worse  
It's maybe that there is a master plan  
Oh he who knows, he must be a great manDown in Leatherwood  
That thought we leave behind  
Down in Leatherwood  
Country love's gonna steal your mind  
And we ain't never gonna be blue, be blue  
Be blue, be blue, be blue
