Pussy

Nick Monaco & David Marston

Do it all for your pussy
Been so long since I tasted your
Natural tight and juicy
Travel the world just to get to your.

Do it all for your pussy
Been so long since I tasted your
Natural tight and juicy
Travel the world just to get to your pussy.

Don't need a reason,
Don't care the season
You're on top,
Stare at the pictures on your wall

You wait idly,
I'm on standby
I wanna water the flowers in your garden

I'm full of fire,
Can feel the friction
Listen closely,
I'm knocking on your door

Are you open?
Want what you're selling?
Anticipation,
What you got in store

Do it all for your pussy
Been so long since I tasted your
Natural tight and juicy
Travel the world just to get to your pussy.

Do it all for your.
Been so long since I tasted your
Natural tight and juicy
Travel the world just to get to your.

Pussy.
Juicy.
