## **Phoenix From The Flames**

## **Robbie Williams**

Silence shields the pain, so you say nothing Feel they've rigged the game and you're done with lovin' Only you can see the darkness in the northern lights Phoenix from the flames, we will rise together They will know our names, can you feel it? Shelter me from pain, I always wanna feel this way, oh yeah Just like a phoenix from the flame Wish they'd take you back 'cause you miss Heaven Too many bags to pack, so leave them where they are Tonight, you're flying on a golden dream Phoenix from the flames, we will rise together They will know our names, can you feel it? Shelter me from pain I always wanna feel this way, oh yeah Everybody's talking, nobody's listening Too busy thinking about what you've been missing Everybody said "You're gonna take it too far, baby, now" Well come on

When you're done with lovin' It comes down to nothing Can you feel it? Can you feel it? Can you feel it? Phoenix from the flames, we will rise together They will know our names, can you feel it? Shelter me from pain, I always wanna feel this way, oh yeah Just like a phoenix from the flame Phoenix from the flames They will know our names, can you feel it? Shelter me from pain, I always wanna feel this way, oh yeah Just like a phoenix from the flame Why don't you come and deny it? You know you can't deny it I always wanna feel this way Just like a phoenix from the flames
