

Green Pastures In The Sky

Ralph Stanley

My shepard leads me out to green pastures

where the clear sweet waters flow

though evil shadows are all around me

im not afraid hes there I know

the storms will come and rage around me

im not afraid he is my shield

when im weary alone and forsaken

he lifts me up he is so real

though I may stray in the fields that are barren

where danger awaits me I may go

the master will search until he finds me

hell guide me back into the fold

im one of his sheep he'll love and protect me

when I call he's there close buy

that day draws nigh for that final journey

to that green pastures in the sky
