

No Sympathy

Bob Marley

I can't find no love
No sympathy
What kind of love
They've got for me
I'm on my way
To happiness
Where I can find
Some peace and rest When I'm in my trouble here
Only me feels the pain
Not one simple word
Good word of advice
From any of my so called friends
I can't find no love
No sympathy
What kind of love
They've got for me
I'm on my way
To happiness
Where I can find
Some peace and rest Might as well, might as well
I get out, I get out of hell
Hell would never be made for me
So I'll search, search 'till I'm free I can't find no love
No sympathy
What kind of love
They've got for me
I'm on my way
To happiness
Where I can find
Some peace and rest
