

# Lived In Bars

## Cat Power

We've lived in bars and danced on tables  
Hotel, streets and ships that sail  
We swim with sharks  
And fly with aeroplanes in the air  
Send in the trumpets, the marching wheelchairs  
Open the blankets and give them some air  
Swords and arches, bones and cement  
The light and the dark of the innocent of men  
We know your house so very well  
And we will wake you once we've walked up all your stairs  
There's nothing like living in a bottle  
And nothing like ending it all for the world  
We're so glad you will come back

Every living lion will lay in your lap  
The kid has a homecoming, the champion, the horse  
Who's going to play drums, guitar or organ with chorus  
As far as we've walked from both ends of the sand  
Never have we caught a glimpse of this man  
We know your house so very well  
And we will bust down your door if you're not there  
We've lived in bars and danced on tables  
Hotel, streets and ships that sail  
We swim with sharks  
And fly with aeroplanes out of here  
Out of here, out of here, out of here, out of here
