

Name of Love (2009 Remaster)

UFO

Living in a one-room
If I don't fall in love soon
Hangin' on the telephone
If I don't get your call soon Every night I spend alone
I've never been so low
And this room is closing in
If I die who will know In the name of love
Is there someone left for me?
In the name of love
Set this heart free Dreaming of a playmate
If I don't fall in love soon
Strangers on a dark night
But it's all over too soon Every night I spend alone
I've never been so low
And this room is closing in
If I die who will know In the name of love
Is there someone left for me?
In the name of love
Set this heart free In the name of love
Is there someone left for me
In the name of love
Set this heart free In the name of love
Is there someone left for me
In the name of love
Set this heart free In the name of love
Is there someone left for me
In the name of love
Set this heart free
