Acetate

Chroma

I remember how you radiate
Chemicals react on acetate
The camera never lies, it stole my fate
Now I can't find my way
A lullaby, race the tide
Killed his history
We deconstruct the simple lies
And don't know what it means
Signals crossed, meanings lost
Imaginations run
It's black on white or white on black
We get the damage done
I remember how you radiate
Chemicals react on acetate
The camera never lies, it stole my fate
Now I can't find my way, now I can't find my way
Paper cuts and darling birds
Debutantes debut
We cannot clean the soft machine
I always thought you knew
If you believe the worst of me
I'll do the same for you
I'll crush your dreams if you crush my dreams
It's the least I can do
I remember how you radiate
Chemicals react on acetate
The camera never lies, it stole my fate
Now I can't find my way, now I can't find my way
I won't surrender but I'll keep on falling
Star crossed, we got your alibis
Lay your weapons down and keep on dreaming
Sure shots come with fireflies
I remember how you radiate
Chemicals react on acetate
The camera never lies, it stole my fate
I remember how you radiate
Chemicals react on acetate
The camera never lies, it stole my fate
Now I can't find my way, now I can't find my way

Now I can't find my way, now I can't find my way
