# Reversed World

## Yyrkoon

Reversed WorldWelcome
In this black and cold place
That no pace
Has ever treaded uponWith midnight
Mists are creeping and all the land is sleeping
Around me tread the mighty dead
And slowly pass awayReversed world
Reversed life
All is back future is past
In the path where goes the light
Darkness shines with millions neonsBut here
In dreamland's center
No spoiler's hand
May enter... Lost
Nowhere
In time
Where is
The helpful hand that I needReversed world
Reversed life
All is back future is past
In the path where goes the light
Darkness shines with millions neonsThe blaze of noonday splendor
The soft and tender twilight may charm the eye
Lost
Alone
Nowhere
In time
And yet shall dieReversed world
Reversed life
All is back future is past
In the path where goes the light
Darkness shines with millions neons
