

Bully

Bully

I know it's out of my control
But I can't let out a beast that
A beast that lives inside of me And I'm not your waterboy
I don't wanna be on your team
That's exactly what my bully says
When he's standin' face to face with me And when I try and tell him
No not today
Steals my crown
Once again I cave
My mind keeps up
Headphones slip up
He's comin' around
I can't feel him now And I'm not your waterboy
I don't wanna be on your team
That's exactly what my bully says
When he's standin' face to face with me And when I try and tell him
No not today
Steals my crown
Once again I cave
I cave
There's a place for a beast like you
Not in my head
Get outta my head
Oh calm down bully!
Calm down
Calm down bully!
Calm down
