

# Hawaii

## Mew

You know time goes by fast like rain  
It swallows your every sound  
From whisper to icy howl  
You know time goes by fast like rain  
It swallows your every sound  
From whisper to icy howl  
Good luck trying to be someone  
If you make it then you've won  
You'll grow up to be someone  
I can't go without you  
No, I need to have you  
Have you met someone?  
Have you touched the bottom?  
The weather is like you  
Third time's the charm  
Like a dog it's breathing  
They're just as lonely  
And we all make mistakes  
Once in a while  
The weather is like you  
Third time's the charm  
Like a dog it's breathing  
It was right beyond doubt  
Things just didn't pan out  
It's a movie set, it's a world constructed  
I can't go without you  
I'm a ghost to have you  
Have you met someone?  
Have you touched the bottom?  
The weather is like you  
Three times the charm  
Like a dog it's breathing  
They're just as lonely  
And we all make mistakes  
Once in a while  
The weather is like you  
Here comes the charm  
Like a dog it's breathing  
They're just as lonely

And we all make mistakes  
Once in a while  
The weather is like you  
The weather is like you
