When the Sun Goes Down

John Gonzalez

I got a beer on the table
The weather it's looking fine
A brand new day unlocks the door
When I'm at work I'm alright
I guess I'm the favorite one
I play it cool down to the core
(Ch)
But when the sun goes down
My mind goes around
And I can't stop from missing missing you
Sunlight on my window
Seems to ease my head
From dreaming all night long of you
I pick up the pieces
Get back on again
Cuz daylight somehow gets me through
(Ch)
But when the sun goes down
My mind goes around
And I can't stop from missing missing you
