

# Desperation

## AVENGERS

Gotta get out of here

There's nothing for me here

Nothing to do, nowhere to go

No words to say, no thoughts to think Oh, I'm leaving, the pressure's building up on me

The air is really thick, can't breathe, I'm leaving

I'm running, I'm running out of time

Out of breath, out of desperation Now you see me, now you don't

Can't stay here much longer

The situation I've been making for myself

Can't take it, not you, I'm running, I'm running

Catch my freedom Now you'll see, I won't be here for long

I gotta get out, out from under you

What are you trying to make me do?

I'm running, I'm running

Gotta get out, gotta catch my freedom
