

Tick Tock

Steffaloo

There's a great big world out there

With wonder and wild air

Filled with life and danger

And your next adventure

There's a great big world below

But you've known all along

Where wasted yesterdays don't matter

And your soul begins to feel brighter

Tick tock

Can you hear the pocket watch

Take a breath and look around, look around

Tick tock

Can you hear the seconds stop

Waiting for you to slow down, slow down and live

There's a great big world in you

Every day is new

And your footsteps are like thunder

Can't you see you create your own wonder

Tick tock

Can you hear the pocket watch

Take a breath and look around, look around

Tick tock

Can you hear the seconds stop

Waiting for you to slow down, slow down and live

Slow down (3x)

Tick tock

Can you hear the pocket watch

Take a breath and look around, look around

Tick tock

Can you hear the seconds stop

Waiting for you to slow down, slow down and live

Slow down (3x)
