

Thunder

Sundy Best

I ain't shot to pieces
For the very first time
And any thought of leaving
It ran across my mind
I ain't had a hard life
Just had a few hard times
I never thought the day would come
When I would call you mine
All of my life I wondered
Look and slow down
But a lot of crooked roads
Are the only thing I've found
Well, you came along
You sand your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now
Couldn't have fought you
Even if I tried
With a thousand-soldier army
And a pistol by my side
You said hello and I said goodbye
To hurt too deep to measure
And scars two cars wide
All of my life I wondered
Look and slow down
But a lot of crooked roads
Are the only thing I've found
Well, you came along
You sand your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now
You're all I hope for
You're all that I've dreamed
You took away my lonely
You made my heart bleed
All of my life I have wondered
Look and slow down

But a lot of crooked roads
Are the only thing I've found
Well, you came along
You sang your song
Put my heartache in the ground
You shook me like thunder
I'll be damned if I'm leaving now
