Cut Up

Ned's Atomic Dustbin

Did you think if you shout you can sort it all out
You can't get your face from the blame
You're no wiser, you're no wiser, even nowYou wish you knew why, you wish you knew why
But you're no wiser, you're no wiser, even now
And you wish you knew whyThey know that you're cut up
So put up or shut upShe makes you feel free and that's how it should be
You've got all this time on your hands
Yes, you want her, you feel stronger, even nowI guess you know why, I guess you know why
Yes, you want her, you feel stronger, even now
And I guess you know why
Yes, you want her you feel stronger, even nowThey know that you're cut up
So put up or shut up
Shut upDid you think if you shout you can sort it all out
You can't get your face from the blame
You're no wiser, you're no wiser, even nowYou wish you knew why, you wish you knew why
But you're no wiser, you're no wiser, even now
And you wish you knew why
You're no wiser, you're no wiser, even nowThey know that you're cut up
But I told you to shut up
