

# Soak It Up

Warren Barfield

I just saw the most amazing sunset  
Well, I watched as it sank into the sea  
An' bid another day goodbye by myself  
I heard a bird sing the most beautiful song  
But for the life of me, I can't remember that melody, no  
Just remember that I had to dance alone Oh, and the days go by so fast  
And the memories they never seem to last  
And I'm quick to see all I don't have  
I need to change the way I look at, all I look at And soak it up, every little bit I can  
Enjoy all my day before all my days end  
And whatever I get always let that be enough  
And never forget to soak it up, yeah, yeah 'Cause I could get caught up in this crazy race  
You know the world we live in leaves no room for second place  
But I've got to believe there's more to life than winning  
I ain't gonna miss out on all the beauty in my life  
Like my family and my friends, and my wife  
All the God given gifts that money can't buy Oh, 'cause the days go by so fast  
And the memories they never seem to last  
But I'm grateful for everything I have  
'Cause You've changed the way I look at, all I look at And soak it up, every little bit I can  
Enjoy all my day before all my days end  
And whatever I get always let that be enough  
And never forget to soak it up, yeah, yeah Ain't gonna be living tomorrows and missing today  
Ain't gonna be making treasures out of things that fade away  
No I'd rather be living every second  
Living every minute of every single day, oh, I will Soak it up, every little bit I can  
Enjoy all my day before all my days end  
And whatever I get I'll always let that be enough  
And never forget Soak it up, every little bit I can  
Enjoy all my day 'fore all my days end  
And whatever I get always let that be enough  
And never forget to soak it up  
Oh, soak it up every little bit, every little bit I can Soak it up every little bit, every little bit I can  
Soak it up every little bit, every little bit I can, yeah  
Soak it up every little bit I can  
Soak it up every little bit, every little bit Soak it up every little bit, every little bit I can  
Soak it up every little bit, every little bit I can, yeah  
Soak it up every little bit I can
