We Love You, Jesus

Shane & Shane

Opening the door to dine with Him

Traveling to earth to let us in

Laying down His glory crown of old

Setting up the wedding feast foretoldOh, we can't contain our love

We turn it up loudWe love You Jesus

For so many reasons

For death and life and freedom

Even now we love YouWhat manner of love is this that You would say?

Your sin is mine, I'll take it to the grave then rising

Death oh, death where is your sting today?

Death is swallowed up in victoryOh, we can't contain our love

We turn it up loudWe love You Jesus

For so many reasons

For death and life and freedom

Even now we love YouWe love You Jesus

In and out of seasons

In valleys and on top of mountains

Even now can we sing?

We love You Jesus, Jesus, Jesus We love You Jesus

For so many reasons

For death and life and freedom

Even nowWe love You Jesus

For so many reasons

For death and life and freedom

Even now we love YouWe love You Jesus

In and out of seasons

In valleys and on top of mountains

Even now can we sing?

We love You
