

Knight Of The Cross

Grave Digger

It is the end, of the eleventh century
The Christians rule
European countries
The Pope is the head of church
Representing God on earth
His words are the law
His mind is set on war
In the name of God they kill
In the name of God they rape
Blood leads to glory - for God's sake
Knights, knights of the cross
Murder, murder
Fight to defend Jerusalem
From the unholy devils
Pope and priests cry out for holy war
God and Jesus they think to be fighting for
The Islam conquered Byzanz
Slaughter Christians everywhere
Knights of the Cross invade the East
Whrer the Islam dwells
