

Round and Around

Kelsey's Woods

Sun barely gettin' by
It's gettin' mighty, mighty tough
There's nothin' but time and it's never enough
But a few more smiles and a little bit of love
Gonna feel like heaven above

CHORUS:

'Cause the sun goes up and the sun goes down
In great big cities and little small towns
Lay my bones underneath the ground
& the world a' keeps spinnin' around and around
The world a' keeps spinnin' round and around

It's always tomorrow for a ramblin' man
Movin' town to town in a travelin' band
Kick off my boots and I grab your hand
It takes me back home again

CHORUS:

'Cause the sun goes up and the sun goes down
In great big cities and little small towns
Lay my bones underneath the ground
& the world a' keeps spinnin' around and around
The world a' keeps spinnin' round and around

When the night settles in and my days are done
When I'm too long gone and my song is sung
Don't cry no tears for this son of a gun
Already too old to die young

CHORUS:

'Cause the sun goes up and the sun goes down
In great big cities and little small towns
Lay my bones underneath the ground
& the world a' keeps spinnin' around and around
The world a' keeps spinnin' round and around

The world a' keeps spinnin' round and around
The world a' keeps spinnin' round and around
