

Seeing Things

Aaron Lines

That night, that dress
Baby, I must confess
I was tongue-tied, but inside
My mind got way ahead of me I'm stuck in this confusion
Trapped in some illusion
It's all because of you Somebody help me
I need an ice cold glass of water
You left me out here in the desert
I'm losing it, hallucinating Somebody save me
Pour me a strong cup of coffee
My eyes are playing tricks on me
What's happening, girl? You got me seeing things Sunlight on your face
Waking up with you each day
My shirt on you
Just the thought's driving me crazy It's like I'm in a daze
Some kind of lovesick haze
Before I go insane Somebody help me
I need an ice cold glass of water
You left me out here in the desert
I'm losing it, hallucinating Somebody save me
Pour me a strong cup of coffee
My eyes are playing tricks on me
What's happening, girl? You got me seeing things I'm drunk on love
I'm stoned on you
I'm wasted
Your face is everywhere I turn Somebody help me
I need an ice cold glass of water
You left me out here in the desert
I'm losing it, hallucinating Somebody save me
Pour me a strong cup of coffee
My eyes are playing tricks on me
What's happening, girl? You got me seeing things
