Colors

Tritonal

So they dance from your eyes like shadows in the night
Don't be surround the stars
We were running in the haze I remember every shade in my veins
Shut up sparks, what's fell from your lips
What I heard it's only noise in the dark
Like when you looked away I remember every shadeSo let your colors run tonight, the painting in the dark
Let your colors run tonight, the colors of your heartLet your colors run tonight, their painting in the dark
Let you colors run tonight, the colors of your heartSo they dance from your eyes like shadows in the night
Don't be surround the stars
We were running in the haze I remember every shade in my veins
Shut up sparks, what's fell from your lips
What I heard it's only noise in the dark
Like when you looked away I remember every shadeSo let your colors run tonight, their painting in the dark
Let your colors run tonight, the colors of your heartLet your colors run tonight, their painting in the dark
Let you colors run tonight, the colors of your heart
