

# This

## Ed Sheeran

This is start of something beautiful  
This is start of something new  
You are the one who'd make me loose it all  
You are the start of something new, ooh

And I'll throw it all away  
And watch you fall into my arms again  
And I'll throw it all away  
Watch you fall, now

You are the earth that I will stand upon  
You are the words that I will sing

And I've thrown it all away  
And watched you fall into his arms again  
And I thrown it all away  
Watched you fall, now

And take me back  
Take me home  
Watch me fall  
Down to earth  
Take me back for

This is start of something beautiful  
You are the start of something new.
